

## Love Smoothies - our strategic partner

Love Smoothies is the leading fresh smoothie company that Zummo works with, to ensure their customers can offer the best smoothies in the market and make them with minimum cost and effort.

The two companies have introduced our smoothies to a wide range of sites ranging from cafés, bars and restaurants to gyms, schools and large corporate sites.

We have even supplied festivals together, including Glastonbury. Love Smoothies' 'Made-Easy' concept allows any site to provide delicious, healthy smoothies with minimal hassle.

They provide individual portion-controlled pouches of frozen fruit (140g) already made up to recipe. The pouches are added to the blender, along with either apple or orange juice and blended for 30 seconds.

Together Love Smoothies and Zummo offer the products and support to introduce and maintain strong smoothie sales at your site.

Love Smoothies also supplies branded biodegradable cups, lids, and straws and a wide range of FREE point of sale material.

It really is simple to get started, especially if you've already got a Zummo Centrifugal juicer or citrus juicer to provide the juice for the smoothies.

Love Smoothies boasts a range of innovative smoothie recipes:
